CEO'S COMMENTS

In November 2011 and January 2012 SCA announced two major transactions. In November a binding offer was made for Georgia-Pacific's European tissue operations, and in January 2012 the divestment of SCA's packaging operations, excluding the two kraftliner mills in Sweden, was announced. Together these two transactions will entail major synergies, lower sensitivity to economic swings and gradually higher earnings per share.

During the financial year SCA carried out important efficiency improvement measures, stepped up the pace in its launch of new products and achieved growth in both mature and emerging markets. Sales increased in all business areas, and net sales for 2011, excluding exchange rate effects and divestments, rose 4% compared with a year earlier. Growth in the hygiene operations remained good in emerging markets, where Personal Care and Tissue grew sales by 13% and 10%, respectively. To take advantage of growth opportunities in the hygiene operations and strengthen our positions in emerging markets, during the year we carried out acquisitions and investments in Brazil, Turkey and Russia, among other places.

Operating profit excluding items affecting comparability and exchange rate effects was level with the preceding year. Price increases and cost savings carried out in combination with increased volumes compensated for SEK 3.2bn in higher raw material costs and higher energy and distribution costs. Profit for the year excluding items affecting comparability and exchange rate effects decreased by 2% compared with the preceding year.

Net sales for the fourth quarter of 2011 excluding exchange rate effects and divestments increased by 1%, and operating profit excluding items affecting comparability and exchange rate effects increased by 1% compared with the fourth quarter a year ago.

Compared with the third quarter, operating profit for the fourth quarter excluding items affecting comparability rose 4%, while net sales were largely unchanged. The operating margin for the hygiene operations continued to grow.

Continued good demand is expected for SCA's hygiene operations.

MARKET/EXTERNAL ENVIRONMENT

2011 began with a recovery of the global economy. During the year, GDP forecasts for 2011 and 2012 were successively revised downward, mainly in Europe.

The global market for incontinence care products is showing continued growth, with favourable development in emerging markets.

Demand for tissue rose slightly in Western Europe and North America in 2011 compared with a year earlier, and emerging markets are showing continued favourable growth. Tissue prices rose during the second half of 2011.

Demand for corrugated board in Western Europe was up by approximately 1% through November 2011. Prices of corrugated board were an average of 9% higher in 2011 than in 2010.

Demand in Western Europe for magazine paper was down 4% through November 2011 compared with the same period a year ago. Demand for newsprint decreased by 3% during the same period. Prices of both magazine paper and newsprint rose in 2011 compared with the preceding year.

Raw material prices for pulp, recycled paper and oil-based products increased in 2011, with sharp rises during the first half of the year. Raw material prices fell during the latter part of 2011.

SALES AND EARNINGS

January–December 2011 compared with corresponding period a year ago

Net sales decreased by 1% (increased by 4% excluding exchange rate effects and divestments) to SEK 105,750m (106,965). Higher prices and volumes increased sales by 3% and 1%, respectively.

Operating profit excluding items affecting comparability decreased by 4% (unchanged excluding exchange rate effects) to SEK 9,224m (9,608). Higher prices and volumes along with cost savings compensated for higher costs for raw materials, energy and distribution. The lower profit is attributable to the strengthening of the Swedish krona.

Items affecting comparability, totalling SEK 5,676m (931), consist mainly of write-downs of assets in Packaging and in Tissue in Australasia, restructuring costs and transaction costs.

Financial items increased to SEK -1,290m (-1,116). The increase is attributable to higher interest rates, which were partly compensated by an average lower level of net debt. Profit before tax excluding items affecting comparability decreased by 7% (3% excluding exchange rate effects) to SEK 7,934m (8,492). The tax expense excluding items affecting comparability was SEK 2,014 (2,211).

Net profit for the period excluding items affecting comparability decreased by 6% (2% excluding exchange rate effects) to SEK 5,920m (6,281). Earnings per share including items affecting comparability were SEK 0.78 (7.90).

Fourth quarter 2011 compared with fourth quarter 2010

Net sales decreased by 1% (increased by 1% excluding exchange rate effects and divestments) to SEK 26,749m (27,052). Higher prices increased sales by 2%, and lower volumes decreased sales by 1%.

Operating profit excluding items affecting comparability decreased by 2% (increased by 1% excluding exchange rate effects) to SEK 2,527m (2,567). Higher prices and a changed product mix compensated for higher raw material costs.

Profit before tax excluding items affecting comparability decreased by 5% (2% excluding exchange rate effects) to SEK 2,167m (2,274).

Profit for the period excluding items affecting comparability decreased by 2% (increased by 1% excluding exchange rate effects) to SEK 1,652m (1,680).

CASH FLOW AND FINANCING

The operating cash surplus amounted to SEK 14,465m (15,097). The cash flow effect of the change in working capital was SEK -1,245m (-1,042). The increase in working capital is mainly attributable to higher trade accounts receivable and inventory values. Current capital expenditures amounted to SEK -3,747m (-3,647). Operating cash flow amounted to SEK 8,577m (9,755).

Financial items increased to SEK -1,290m (-1,116) as a result of higher interest rates, which were partly compensated by a lower level of net debt. Tax payments decreased to SEK 961m (1,255). Cash flow from current operations decreased to SEK 6,383m (7,399), mainly as a result of a lower operating cash surplus and higher level of tied-up working capital.

Strategic investments decreased to SEK -1,910m (-2,427). Acquisitions and divestments amounted to SEK -691m (804). Dividends amounted to SEK -2,898m (-2,657). Net cash flow decreased to SEK 884m (3,119).

Net debt increased during the year by SEK 2,242m to SEK 36,648m. Excluding pension liabilities, net debt amounted to SEK 32,143m. Net cash flow decreased net debt by 884m. Fair value measurement of pension assets and pension obligations together with fair valuation of financial instruments increased net debt by SEK 3,505m. Exchange rate movements reduced net debt by SEK 379m. The debt/equity ratio was 0.60 at year-end (0.51 at the beginning of the year). Excluding pension liabilities, the debt/equity ratio was 0.52 at year-end (0.47 at the beginning of the year). The debt payment capacity improved to 36% (35%).

As per 31 December 2011, SCA had outstanding commercial paper worth SEK 5,142m maturing within 12 months. Unutilised credit facilities amounted to SEK 21,016m, of which long-term facilities amounted to SEK 20,377m. In addition, SCA has received committed credit facilities worth EUR 1,100m (SEK 9,832m) related to an outstanding offer of EUR 1,320m to acquire Georgia-Pacific's European tissue operations. Cash and cash equivalents amounted to SEK 2,752m.

EQUITY

Consolidated equity decreased during the period by SEK 6,530m to SEK 61,291m. Net profit for the period increased equity by SEK 607m. Equity decreased by SEK 2,898m through payment of shareholder dividends, by SEK 2,607m through restatement of the net pension liability to fair value after tax, and by SEK 696m after tax through fair value measurement of financial instruments. Exchange rate movements, including the effects of hedges of net investments in foreign assets, decreased equity by SEK 936m.

TAX

A tax expense corresponding to a tax rate of 25% is reported for the period, excluding items affecting comparability. The tax rate for the full year 2012 is expected to be 27%.

DIVIDEND

The Board of Directors proposes an increase in the dividend by 5%, to SEK 4.20 per share (4.00), or SEK 2,950m (2,809). Dividend growth during the last ten-year period thereby amounts to 4%. The record date for the right to the dividend has been proposed as Tuesday, 3 April 2012.

ITEMS AFFECTING COMPARABILITY

Items affecting comparability amounted to SEK 5,676m (931). These consist of Group write-downs of assets in the packaging operations, totalling SEK 3,949m; a capital loss of SEK 654m in connection with the divestment of 50% of the hygiene operations in Australasia; transaction costs of SEK 118m in connection with acquisitions and divestments; and restructuring costs of SEK 955m (931).

OTHER EVENTS DURING THE QUARTER

In November SCA made a binding offer to acquire Georgia-Pacific's European tissue operations, with 2010 sales amounting to SEK 11.9bn (EUR 1.25bn). The offered price is approximately SEK 12bn (EUR 1.32bn). The deal is a good strategic fit for SCA and will

Cashflow from current operations

strengthen the Group's product offering and geographic reach in Europe. Annual synergies are estimated at EUR 125m, with full effect three years after closing. The transaction is subject to customary consultation with employee representatives and approval by the relevant authorities.

In November SCA decided to form a joint venture for its existing operations in Australasia, with net sales of SEK 4,400m in 2010. The joint venture in Australasia enables more efficient financing and will increase the speed of development for the operations. SCA and the Australian company Pacific Equity Partners (PEP) each hold 50% of the company. The transaction entails a deconsolidation of the business, which will be financially reported as a joint venture according to the equity-share method. In connection with the refinancing of the business and divestment of 50% of the equity, at the start of 2012 SCA received approximately SEK 3,200m. In connection with the transaction, a net loss of SEK 654m was recorded, which was charged against earnings during the fourth quarter of 2011.

To support its long-term strategy and strengthen its competitiveness, SCA has initiated a reorganisation of its global hygiene operations. The new organisation took effect on 1 January 2012 and will contribute to increased efficiency, market presence and growth.

During the fourth quarter SCA decided to invest a total of SEK 540m in an upgrade of the paper machine and refurbishment of the soda-recovery boiler at the kraftliner mill in Munksund, Sweden. The main aim of the investment is to increase production of value-added products, such as white-top kraftliner.

EVENTS AFTER THE END OF THE QUARTER

On 17 January 2012 an agreement was reached with DS Smith on the divestment of SCA's packaging operations, excluding the two kraftliner mills in Sweden. The purchase price is EUR 1.7bn on a debt-free basis. The operations had net sales in 2011 of approximately SEK 24.4bn (EUR 2.5bn) and approximately 12,000 employees. In connection with the transaction, a write-down of goodwill of approximately SEK 4bn was made for the fourth quarter of 2011. The transaction is subject to approval from DS Smith's shareholders and the pertinent authorities.

SCA is the global market leader in incontinence care with its TENA brand. During the year, several new products were launched, including a line of incontinence care products designed as protective underwear for both men and women, and TENA Belt, an incontinence care product that offers users improved skin comfort.

In baby diapers, SCA is the market leader in the Nordic countries with its Libero brand. During the year, SCA expanded its offering of baby care products under the Libero brand. In the Nordic countries and Russia, a thinner and more comfortable baby diaper was launched.

In 2011 SCA established operations in two strategically important markets. In Brazil, SCA acquired Pro Descart, the second-largest player in the incontinence care market. In Turkey, SCA acquired 95% of San Saglik, the second-largest provider of incontinence care products in the country, and 50% of Komili, the fourth-largest producer of baby diapers and feminine care products.

January–December 2011 compared with corresponding period a year ago

Net sales decreased by 1% (increased by 5% excluding exchange rate effects) to SEK 24,775m (25,027). Higher volumes increased sales by 3%, and acquisitions increased sales by 2%. In emerging markets, sales rose 13% excluding exchange rate effects.

Sales of TENA-brand incontinence care products increased by 4%, excluding exchange rate effects. Sales of baby diapers increased by 7%, excluding exchange rate effects, mainly related to the preceding year's acquisition in Mexico. Sales of feminine care products increased by 1%, excluding exchange rate effects, driven by favourable sales growth in Latin America.

Operating profit was 9% lower than a year ago (5% excluding exchange rate effects) and amounted to SEK 2,645m (2,922). Profit was favourably affected by higher volumes and prices, and cost savings. Profit was charged with negative exchange rate effects and SEK 628m in higher raw material costs.

The operating cash surplus amounted to SEK 3,745m (4,111). Operating cash flow decreased to SEK 2,823m (3,230) as a result of a lower operating cash surplus and higher current capital expenditures, which were partly compensated by a lower level of working capital.

Fourth quarter 2011 compared with fourth quarter 2010

Net sales increased by 2% (4% excluding exchange rate effects) to SEK 6,529m (6,375). Higher volumes and prices each increased sales by 1%, and acquisitions increased sales by 2%.

Sales of TENA-brand incontinence care products increased by 5%, excluding exchange rate effects. The increase is related to the acquisition in Brazil and favourable growth in Eastern Europe. Sales of baby diapers increased by 5%, excluding exchange rate effects. The increase is mainly related to Europe and Latin America. Sales of feminine care products increased by 1%, excluding exchange rate effects.

Operating profit increased by 8% (12% excluding exchange rate effects) to SEK 792m (735). Profit was favourably affected by higher volumes and prices, and cost savings. Profit was charged with SEK 56m in higher raw material costs and negative exchange rate effects.

Operating cash flow was SEK 365m (975). The change is mainly attributable to a higher level of trade accounts receivable.

In the away-from-home (AFH) tissue segment, SCA grew its market shares in Europe with its Tork brand. SCA's environmentally certified tissue products led to new contracts in Europe, the USA and the Asia-Pacific region. In the AFH segment, a new, more user-friendly soap dispenser was launched in the Tork Elevation series.

In November SCA made a binding offer to acquire Georgia-Pacific's European tissue operations, with 2010 sales amounting to SEK 11.9bn (EUR 1.25bn). January–December 2011 compared with corresponding period a year ago

Net sales decreased by 2% (increased by 4% excluding exchange rate effects) to SEK 39,118m (39,870). Higher prices and volumes each increased sales by 2%. Sales in emerging markets increased by 10%, excluding exchange rate movements.

Sales of consumer tissue increased by 3%, excluding exchange rate effects. Emerging markets showed strong sales growth.

Sales of AFH tissue increased by 6%, excluding exchange rate effects. The increase is mainly attributable to strong growth in Eastern Europe, North America and Latin America.

Operating profit improved by 4% (10% excluding exchange rate effects) to SEK 3,150m (3,041). Higher prices, a changed product mix and higher volumes had a favourable impact on profit. Sharply higher raw material costs, by SEK 338m, higher distribution costs and negative exchange rate effects lowered operating profit.

The operating cash surplus increased to SEK 5,347m (5,277), and operating cash flow decreased to SEK 3,446m (4,033). Cash flow decreased as a result of a higher level of working capital.

Fourth quarter 2011 compared with fourth quarter 2010

Net sales increased by 1% (3% excluding exchange rate effects) to SEK 10,280m (10,154). Higher prices and a changed product mix increased sales by 3%.

Net sales of consumer tissue were level with the fourth quarter a year ago, excluding exchange rate effects. Emerging markets showed strong sales growth.

Net sales of AFH tissue increased by 6%, excluding exchange rate effects. Markets in Western Europe and North America showed favourable growth.

Operating profit improved by 33% (37% excluding exchange rate effects) to SEK 1,046m (787). Higher prices, a changed product mix and lower raw material costs had a favourable impact on profit. Exchange rate effects lowered profit.

In January 2012 SCA announced that its packaging operations – excluding the two kraftliner mills in Sweden – are being divested to DS Smith. The purchase price is EUR 1.7bn on a debt-free basis. The transaction is subject to approval from DS Smith's shareholders and the pertinent competition authorities.

During the year, a decision was made to invest in an upgrade of the paper machine and refurbishment of the soda-recovery boiler at the kraftliner mill in Munksund, Sweden. The main aim of the investment is to increase production of value-added products, such as white-top kraftliner.

SCA's prices for corrugated board were an average of 9% higher in 2011 than a year ago.

January–December 2011 compared with corresponding period a year ago

Net sales decreased by 1% (increased by 8% excluding exchange rate effects and divestments) to SEK 26,650m (26,831). Higher prices increased net sales by 8%, while divested operations lowered sales by 5%.

Operating profit increased by 21% (26% excluding exchange rate effects) to SEK 1,909m (1,577). The profit improvement is attributable to higher prices and volumes, and cost savings, which compensated for approximately SEK 1.6bn in higher raw material costs.

The operating cash surplus improved to SEK 3,181m (2,921). Operating cash flow increased to SEK 1,366m (1,168) as a result of the higher operating cash surplus and lower investments, which compensated for the higher level of working capital.

Fourth quarter 2011 compared with fourth quarter 2010

Net sales decreased by 6% (unchanged excluding exchange rate effects and divestments) to SEK 6,287m (6,704). Higher prices increased net sales by 3%, while lower volumes decreased sales by 3%. Divested operations reduced sales by 5%.

Operating profit decreased to SEK 428m (567). Higher prices and cost savings contributed to a higher profit, but did not fully compensate for higher raw material and energy costs, lower volumes as a result of divestments and negative exchange rate effects.

During the year, SCA and the Norwegian company Fred.Olsen Renewables formed a jointly owned company to build a wind farm on SCA's land in northern Sweden. The area has the potential for approximately 2 TWh in annual wind power generation. In a co-operation project with the Norwegian company Statkraft, construction of the first wind farm was begun during the year.

At the end of the year, the new lime kiln at the Östrand pulp mill was inaugurated. It will reduce carbon dioxide emissions by 80% while reducing costs by approximately SEK 50m on a yearly basis.

A decision was made during the year to rebuild one of the newsprint machines in Ortviken, Sundsvall, to allow production of higher paper grades.

January–December 2011 compared with the corresponding period a year ago

Net sales were level with the corresponding period a year ago (increased by 1% excluding exchange rate effects) and amounted to SEK 17,180m (17,123). Higher prices primarily for publication papers along with acquisitions increased sales by 2% and 1%, respectively. Lower volumes decreased sales by 2%.

Operating profit decreased by 18% to SEK 2,001m (2,455). Profit for the publication paper operations improved to SEK 183m (-88). Higher prices for publication papers compensated for higher raw material costs and negative exchange rate effects. The lower operating profit for the pulp and solid-wood operations is mainly attributable to higher raw material costs and negative exchange rate effects. Completed productivity improvements had a favourable effect on profit.

The operating cash surplus was SEK 2,700m (3,216), and operating cash flow totalled SEK 1,642m (1,860).

Fourth quarter 2011 compared with fourth quarter 2010

Net sales decreased by 3% to SEK 4,155m (4,290). Higher prices for publication papers increased net sales by 1%. Lower volumes decreased net sales by 4%.

Operating profit amounted to SEK 440m (592). The lower profit is attributable to higher raw material costs and negative exchange rate effects.

RISKS AND UNCERTAINTIES

SCA's risk exposure and risk management are described on pages 44–49 of the 2010 Annual Report. No significant changes have taken place that have affected the reported risks.

Risks in conjunction with company acquisitions are analysed in the due diligence processes that SCA carries out prior to all acquisitions. In cases where acquisitions have been carried out that may affect the assessment of SCA's risk exposure, these are described under the heading "Other events" in interim reports.

Risk management processes

SCA's board decides on the Group's strategic direction, based on recommendations made by Group management. Responsibility for the long-term, overall management of strategic risks corresponds to the company's delegation structure, from the Board to the CEO and from the CEO to the business unit heads. This means that most operational risks are managed by SCA's business units at the local level, but that they are co-ordinated when considered necessary. The tools used in this co-ordination consist primarily of the business units' regular reporting and the annual strategy process, where risks and risk management are a part of the process.

SCA's financial risk management is centralised, as is the Group's internal bank for the Group companies' financial transactions and management of the Group's energy risks. Financial risks are managed in accordance with the Group's finance policy, which is adopted by SCA's board and which – together with SCA's energy risk policy – makes up a framework for risk management. Risks are compiled and followed up on a regular basis to ensure compliance with these guidelines. SCA has also centralised other risk management.

SCA has a staff function for internal audit, which monitors compliance in the organisation with the Group's policies.

RELATED PARTY TRANSACTIONS

No transactions have been carried out between SCA and related parties that had a material impact on the company's financial position and results of operations.

ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 and recommendation RFR 1 of the Swedish Financial Reporting Board (RFR), and with regard to the Parent Company, RFR 2. The accounting principles applied correspond to those described in the 2010 Annual Report, except for with respect to a number of amendments to existing standards and new interpretations that took effect on 1 January 2011.

On 17 January 2012 SCA announced its intention to divest its packaging operations, excluding the kraftliner operations, to the packaging company DS Smith. The deal is expected to be completed during the second quarter of 2012. Based on this, the operations that are intended to be divested have been classified and reported as a disposal group held for sale, in accordance with IFRS 5. This year-end report includes information about earnings, assets, liabilities and cash flow for the disposal group. Comparative figures have been adjusted where necessary. In calculations of the disposal group's profit for the period as well as assets, liabilities and cash flow, SCA has used the same accounting principles as for the rest of the Group, with certain, special additions and assumptions, which are reported on in this section. In connection with the ongoing divestment, a write-down of assets has been made to a value that corresponds to the contracted purchase price. The units included in the disposal group include all of the companies that are owned directly or indirectly by SCA and are included in the part of Packaging that are intended to be divested. The reported tax expense and deferred tax have been based on what has been calculated for the respective units with applicable adjustments for the disposal group and the rest of the Group as a whole. This approach has also been applied for net financial items. Other items have been calculated and classified on the same basis as for the rest of the SCA Group.

During the fourth quarter, SCA decided to establish a joint venture partnership for its existing hygiene operations in Australasia. Based on this, non-current assets for the operations referred to here have been classified and reported as non-current assets held for sale in accordance with IFRS 5. A write-down of assets has been made to a value that corresponds to the contracted purchase price.

FUTURE REPORTS

In 2012 quarterly interim reports will be published on 18 April, 19 July and 18 October.

SCA's Annual Report will be available at the company and on the company's website, www.sca.com, by 8 March 2012 at the latest.

ANNUAL GENERAL MEETING

SCA's Annual General Meeting will be held on Thursday, 29 March 2012, at the Stockholm City Conference Centre, in Stockholm, Sweden.

INVITATION TO PRESS CONFERENCE ON Q4
