- Earnings in 2000 and in the fourth quarter were record high.
- Company acquisitions and organic growth increased the Group net sales by $\mathbf{1 2 \%}$. The increase for Packaging was $\mathbf{1 6 \%}$ and for Hygiene Products $\mathbf{1 1 \%}$.
- Operating margins for Hygiene Products and Forest Products improved during the fourth quarter.
- The board propose a dividend of SEK 7.75 per share, an increase with $\mathbf{1 4 \%}$.

## NET SALES AND EARNINGS

Consolidated net sales amounted to SEK $67,157 \mathrm{M}(64,896), 3 \%$ higher than in the preceding year. Adjusted for the influence of fine-paper operations, which were included in the first three quarters of 1999, net sales rose $20 \%$ for the Group's other operations. Expansion through company acquisitions and organic growth resulted in a net sales increase of $12 \%$, while the remainder of the increase was attributable to higher selling prices. Changes in exchange rates reduced Group net sales by $2 \%$.

Group operating profit amounted to SEK $10,534 \mathrm{M}(6,733)$. Excluding non-recurring items, SEK $2,031 \mathrm{M}$, operating profit amounted to SEK $8,503 \mathrm{M}$, an increase of SEK $26 \%$ compared with 1999. Currency movements had a marginally negative impact on earnings. Operating profit rose in all business areas. Operating profit for Hygiene Products amounted to SEK 2,909 M (2,613), up 11\%, while the corresponding figure for Packaging was SEK $2,977 \mathrm{M}(2,216)$, an increase of $34 \%$, and Forest Products reported operating profit of SEK $2,720 \mathrm{M}(2,123)$, up $28 \%$. Operating profit includes SCA's share of earnings in Modo Paper for the period January-July, amounting to SEK 644 M. Operating profit in 1999 included SEK 491 M relating to SCA's former fine paper operations and the share in earnings of Modo Paper. Operating profit in the fourth quarter also includes gains on a leasing transaction involving the pulp mill at Östrand of about SEK 140 M . The amount was reported among finance operations.

Financial items amounted to an expense of SEK 1,207 M (expense: 1,212). Higher interest rates offset the effect of a lower average net debt.

Group earnings after financial items amounted to SEK 9,327 M (5,521). Excluding non-recurring items, earnings after financial items totaled 7,296, up 32\% compared with 1999.

Net earnings after taxes amounted to SEK 7,148 M $(3,602)$, corresponding to earnings per share after full tax and dilution of SEK 30.86 (16.85). Net earnings after tax, excluding non-recurring items, rose $37 \%$ to SEK $4,917 \mathrm{M}$, which corresponds to earnings per share after full tax and dilution of 21.24, representing an improvement of $26 \%$. The corresponding earnings per share, excluding goodwill amortization, was SEK 24.38 (19.66).

Net earnings after tax, including non-recurring items, was SEK 7,148 M, equal to earnings per share, after full tax and dilution, of SEK 30.86.

Return on shareholders' equity was $20 \%$ (12), while return on capital employed was $18 \%$ (12). Excluding non-recurring items, the return on shareholders' equity was $14 \%$ (12), while the return on capital employed was $15 \%$ (12).

## Comparison with the third quarter

As a result of improvements in operating profit for Hygiene Products, 17\%, Packaging, 9\% and Forest Products, $6 \%$, consolidated operating profit, excluding non-recurring items, rose $10 \%$ to SEK 2,334 M. The earnings improvements in Hygiene Products and Packaging was due mainly to previously implemented price hikes gaining full effect while the earnings increase for Forest Products was attributable primarily to higher deliveries during the quarter.

Earnings after financial items rose $13 \%$ and amounted to SEK 2,048 M (1,805), which, excluding non-recurring items, represented the highest quarterly earnings to date.

## CASH FLOW

The operating cash surplus amounted to SEK $12,383 \mathrm{M}(11,101)$, corresponding to $18 \%$ (17) of net sales.

Operating cash flow amounted to SEK $9,005 \mathrm{M}(8,707)$. Working capital increased by SEK $1,109 \mathrm{M}$ (226) during the year. The trend in working capital during the year was affected by the exceptionally low level of tied-up working capital at the preceding year-end, when it amounted to $10.3 \%$ of net sales. Tied-up working capital at the end of the quarter amounted to $11,3 \%$. Current net capital expenditures amounted to SEK 2,245 M $(2,046)$

Cash flow from current operations, that is, before strategic investments and dividends, amounted to SEK $6,652 \mathrm{M}(6,740)$, equal to SEK 28.68 (31.45) per share.

Company acquisitions during the period totaled SEK $2,349 \mathrm{M}$, and were primarily attributable to the acquisition of Metsä Corrugated and Johnson \& Johnson's North American incontinence products operations. Divestments, including SCA's interest in Modo Paper, generated SEK 7,758 M. Strategic investments in plant and machinery and restructuring costs amounted to SEK $1,452 \mathrm{M}$ and primarily involved expansion expenditures in hygiene operations. This resulted in a net inflow from strategic investments, company acquisitions and divestments of SEK $3,957 \mathrm{M}$ compared with an outflow of SEK $10,500 \mathrm{M}$ a year earlier.

## FINANCING

Net debt at the year-end amounted to SEK 15,880 M, which was SEK $8,193 \mathrm{M}$ lower than at the beginning of the year. The change reflects the net of cash flow from current operations amounting to SEK $6,652 \mathrm{M}$, net inflow for strategic investments and divestments, etc., totaling SEK 3,957 M, dividends of SEK $1,585 \mathrm{M}$ and negative effects of currency movements etc., amounting to SEK 831 M .

The weakening of the Swedish krona increased equity by approximately SEK 800 M .
The debt/equity ratio amounted to 0.39 (0.69). The interest coverage multiple was 7.0 (5.6), excluding the effect of non-recurring items.

## HYGIENE PRODUCTS BUSINESS AREA

Net sales amounted to SEK $31,040 \mathrm{M}(27,327)$, an increase of $14 \%$ compared with a year-earlier. Acquired companies and organic growth increased net sales by $11 \%$. Selling prices and improved product mix increased net sales $5 \%$, while currency movements affected it adversely by $2 \%$. Operating profit rose $11 \%$ to SEK $2,909 \mathrm{M}(2,613)$. The improvement was primarily attributable to company acquisitions and expansion in non-European markets. Implemented price increases, productivity increases and volume growth offset sharp increases in raw material and energy prices during the year as well as increased depreciation as a result of expansion investments.

In the fourth quarter, operating profit was SEK 865 M , an increase of $17 \%$ compared with the third, while at the same time the margin improved. This was due to the full effect of price hikes earlier in the year.

## Consumer Products

Earnings from Consumer Products increased $26 \%$ to SEK 1,394 M $(1,108)$. The rise is primarily attributable to acquisitions, as well as from efficiency-enhancement gains and organic growth in the fluff area.

Compared with the third quarter, earnings during the fourth quarter increased from SEK 361 M to SEK 455 M , up $26 \%$, mainly as a result of the effect of the price rises and certain cost reductions. The operating margin rose from $8 \%$ to $9 \%$.

## AFH and incontinence products

Operating profit for AFH and incontinence products was at the year-earlier level, amounting to SEK $1,515 \mathrm{M}(1,505)$. The volume trend was favorable for incontinence operations, while tissue volumes were largely unchanged.

Operating profit for the fourth quarter amounted to SEK 410 M (379), $8 \%$ higher compared with the third quarter due to higher sales volumes.

## PACKAGING BUSINESS AREA

Net sales for the period amounted to SEK $24,636 \mathrm{M}(19,858)$, an increase of $24 \%$. The increase was attributable to company acquisitions, $16 \%$, and increased sales prices, $11 \%$, while currency movements reduced sales by $3 \%$.

Operating profit amounted to SEK $2,977 \mathrm{M}(2,216)$, an improvement of $34 \%$. The increase resulted from higher sales prices and company acquisitions. During the year, raw material and energy costs increased substantially which limited the earnings improvement. The business area's external net sales of liner products amounted to about 200,000 tons during the year.

Sales in the fourth quarter increased significantly due to the acquisition of Metsä Corrugated which was only consolidated for one month of the third quarter. Compared with the third quarter, earnings during the fourth quarter rose $9 \%$ to SEK 854 M (787), mainly due to the effect of earlier price hikes in the corrugated board area. The earnings improvement was limited by continued rising costs of energy and transports. Margins were unchanged.

## Corrugated board packaging

Market growth in Europe amounted to $3.4 \%$ during 2000. The large markets, Germany, France, Italy and Spain, grew by $5-6 \%$, while corrugated board demand in the UK fell by nearly $3 \%$.

Price rises for corrugated board were implemented gradually during the year. Prices stabilized during the fourth quarter.

## Containerboard

After a year of good volume growth and rising prices, the market stabilized in the fourth quarter. Raw material costs, primarily for recycled fiber, have increased significantly. This also applies to energy prices, which continued to rise at the end of the year.

In order to balance the inventory situation, downtime was taken during the second half of the year.

## FOREST PRODUCTS BUSINESS AREA

Net sales by the business area amounted to SEK $12,876 \mathrm{M}(11,532)$, an increase of $12 \%$. Operating profit amounted to SEK $2,720 \mathrm{M}(2,123)$, up $28 \%$. Earnings improved for pulp and LWC but declined somewhat for SC paper.

Formation of the Scaninge forestry and sawmill company, to which SCA contributed the sawmill in Lugnvik and about $8 \%$ of its existing forest holdings, resulted in a reduction in SCA's net debt of SEK 916 M. Since Scaninge is reported as an associated company, interest charges of SEK 28 M have reduced operating profit for the business area during the second half of the year.

Earnings for the fourth quarter rose $6 \%$ compared with the third quarter and totaled SEK 734 M (693). The earnings improvement was generated by the publications paper operations and was due to higher delivery volumes during the quarter.

## Publication papers

Operating profit from publication paper operations amounted to SEK $1,348 \mathrm{M}(1,306)$, up $3 \%$. Higher delivery volumes and sales prices for LWC offset higher costs of pulp and recycled fiber as well as increased energy prices.

The earnings improvement during the fourth quarter was due to very high delivery volumes. The publication paper market is strong and prices were increased at year-end for SC and newsprint.

## Pulp, timber and solid wood products

The operating profit totaled SEK $1,372 \mathrm{M}$ (817), and was thus nearly $70 \%$ higher than in the preceding year. Most of the improvement is attributable to better earnings in pulp operations. Operating profit in forestry operations was somewhat lower than in the preceding year, while earnings for sawmill operations improved.

The earnings decline of SEK 30 M during the fourth quarter compared with the third is due to lower earnings in the forest operations due to extraordinary costs caused by the difficult weather conditions in the autumn.

## PERSONNEL

The number of SCA Group employees at year-end was 34,953 (34,137).

## MARKET OUTLOOK

The market situation is expected to remain favorable in the early part of 2001, with favorable demand for the Group's products although a weakening in volume is expected compared with the fourth quarter.

Currently, the price situation for Packaging and Hygiene Products is stable, while increases in the costs of raw materials have leveled out. In contrast, the cost of energy and transport is expected to rise during the first quarter. Pulp prices are currently stable, but could be corrected downward during the first half of the year. However, increased competition is being noted in the Hygiene Products and Packaging areas, among other factors, in anticipation of the risk of a general economic slowdown.

The publication papers market remains strong, which resulted in price increases for SC and newsprint in the beginning of the year.

## OTHER

Divestment of the interest in Modo Paper during the third quarter resulted in a capital gain of SEK $2,656 \mathrm{M}$. A provision of SEK 625 M for restructuring measures in the tissue area was allocated in the same quarter. The combined effect of these items, SEK $2,301 \mathrm{M}$, comprises non-recurring items.

The closing of the books is preliminary and has not been the object of a final examination by the company's auditors. At the Board meeting to be held on 22 February, where the year-end report will be presented, the provision for restructuring measures of SEK 625 M , which was posted in the third quarter, will be finally specified.

At the time of this meeting, the EU Commission's decision regarding the Metsä Tissue transaction will also be available.

In January, an agreement was reached with Georgia-Pacific covering acquisition of parts of the company's American tissue operations. In addition, SCA has tendered a bid for the shares in the American packaging company Tuscarora. These transactions were described in a press release distributed on 22 January 2001.

## ANNUAL GENERAL MEETING

The Annual General Meeting will be held on 6 April, at 2:00 p.m. at Cirkus in Stockholm. The proposed record date to receive dividends is 11 April. Payment through VPC is expected to take place on 18 April. The interim reports for 2001 will be distributed on 27 April, 27 July and 30 October. The annual report for 2000 is expected to be distributed in mid-March 2001.

## NOMINATING COMMITTEE

The Nominating Committee, whose task is to present proposals regarding the composition of SCA's Board of Directors, includes Bo Rydin, SCA Board Chairman, Bo Damberg, Handelsbanken Foundations, Thomas Halvorsen, Fjärde AP-fonden, Björn Lind, SEB Funds, and Peter Rudman, Nordbanken Funds.
